--

Dear Madam or Sir,

After a long and careful consideration on the available information, I believe that Microsoft Co. should be broken into at least 5 different companies; applications, desktop operating systems, security, games, and Macintosh software. The people responsible for the predatory marketing ought to be penalized with jail time, & large monetary fines.

The proposed school aid remedy is just a thinly veiled attempt to exploit the educational customers. As a teacher I believe it would be a great mistake to allow a remedy without proof that Microsoft will not be able to continue to dominate the marketplace.

Sincerely,

Tony Ramirez
